Previous Experience

SDE1 - FRONTEND @ CRAFTSVILLA (PLOTCH AI) | 01/2021 - PRESENT | [Link](#)

- Technology Stack - HTML 5, CSS 3, Bootstrap 3/5, Javascript, JQuery, Ajax, Php, Api integration, DOM Manipulation etc
- At Plotch.ai I and my team worked on creating a customizable website creation framework with the functionality of ONDC (Open Network for Digital Commerce) for small and large scale companies.
- I developed the frontend of ecommerce product page which consist of various functionalities like Place order, track order, etc which is used by multiple companies like Messho and Craftsvilla.
- I developed the frontend for Launch Store Front where companies can add their product, customize website element like color, themes, fonts, section removal or addition.
- I also developed the frontend for Dashboard where companies can see their data like user order data, traffic on their site using some animation and graph element and intergration with api (CRUD Operation).
- Developed and designed various web section element like progress animations, navbar, search bar, graphs, themes from scratch using some open source tools like figma,etc.
- Built custom sections for UX - library consisting of Filters, Drop down, Carousel, Checkbox, Inputs, etc.

Technical Skills

Languages: Html5, Css3, Bootstrap, Javascript and Php.

Technologies/Frameworks/Libraries: JQuery, Ajax, React.js, Rest Api, Api Integration, Axios

Designing Tools: Figma And Photoshop

Other: Jira, Git, VsStudio, Sublime and Postman
